Power out is conducted. This device is certified for mobile and fixed application. End users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance. The antennas used with this device must be installed to provide a minimum separation distance of 20 cm from all persons. Only those antennas approved in this filing may be used, or similar with equal or lesser gain. Operating configurations, antenna gain, including cable loss, must not exceed the gains documented in this filing for satisfying RF exposure compliance, as defined in 2.1091.

This device supports LTE CAT M1 feature only.

For FCC Approval

The data has been uploaded to the FCC database and a certificate has been issued.

The FCC grant(s) are with immediate effect and are published on the FCC website at <https://apps.fcc.gov/oetcf/eas/reports/GenericSearch.cfm>

Please be aware that the FCC reserves the right to review any TCB grant within 30 days.

Info:

Please be advised that the grantee shall make provisions to have production samples available for at least one year after the last production date and that the grantee may be requested to submit the equipment for post-market surveillance testing. These samples may be requested, at any time, by either the TCB or the FCC.
